

School funding in **CRISIS**

School budgets in Wales are at breaking point: Education funding is being stretched, schools are suffering with fewer teachers and support staff, and class sizes are increasing.

The Welsh government education budget has decreased by 2.37% and more cuts to LA funds are bypassing the so-called 'protection' for schools.

Wales needs sufficient, equitable and transparent school funding.

Mae cyllideb addysg Llywodraeth Cymru wedi lleihau 2.37% ac mae rhagor o doriadau yng nghyllidebau awdurdodau lleol yn diystyru'r 'warchodaeth' honedig i ysgolion.
